American Investor Hurt by Political Situation

If the Treaty Ratified and the League of Nations Working the Economic Situation Would Improve

(By United Press)
New York, Jan. 14.—"At a time when there is acute need in Europe for stabilization politically and economically, it is very unfortunate that the peace treaty should be made the subject of political debate in this country," J. Alexander, new secretary of commerce, declared in a speech before a manufacture and export association here today.

"The investors of American private capital in foreign countries is believed to be delayed by the political situation. If the treaty were ratified and the league of nations in operation American investors would have greater confidence in putting money in foreign securities."

"The United States has assumed a moral responsibility in foreign affairs which cannot be ignored by shutting off of American industries and commerce, moreover it is depending on more active participation in foreign affairs than ever before. This is a question appertaining not only to the bankers and exporters but all classes of American industries and to all classes of American labor. American products which enter into our export trade come from all sections of the country, comprising food stuffs, raw material and manufactured products. The prosperity of the United States demand there should be adequate outlet for surplus production. Whatever view and inclination of various men in favor of keeping out of foreign affairs, we must record that we will commit to foreign relations all political and economies which we can not to our profit escape."

Urges Six Hour Day For Miners

Also Charges That Employe of Commission is Working in the Interests of the Operators

(By United Press)
Washington, Jan. 14.—Charges that one of the employees of President Wilson's coal commission has acted in the interest of coal operators, were made today by F. Farrington, head of the Illinois district of the United Mine Workers.

Farrington was before the commission, which is to settle the coal controversy, and said the employee against whom he had made the charges had circulated signed articles belittling the cause of the miners.

Chairman Robinson, of the commission, declared an investigation would be made and asked Farrington for proof of his statement. Farrington urged the commission to award the miners a six hour day, declaring that there are fifty per cent more miners than are necessary and during the past year and 1918 Illinois miners averaged only 261 working days. With the six hour day they would be able to work all the year round, he said.

Immediate Increase in Railroad Facilities

Is Necessary to Escape a Panic in This Country Said the Editor of the Railroad Age

(By United Press)
Pittsburgh, Pa., Jan. 14.—Immediate large increases in the freight carrying capacity of American railroads is the only hope of avoiding one of the worst financial panics in history, Samuel C. Dunn, editor of the Railroad Age, said to the Rotarians here today.

"The people and congress of the United States are living in a fool's paradise so far as the railroad situation is concerned," Dunn said.

"The lists of stock among the stock exchanges and other evidence shows we are engaged in investing billions of dollars annually, and even engaged in other industries while only a trifling amount is being invested in railroad facilities."

Arguments Being Made In New Murder Case

Los Angeles, Cal., Jan. 14.—Arguments in the trial of Harry S. New for the murder of Frieda Lesser, is rapidly nearing a conclusion yesterday. The case may go to the jury today. Attorney Rush for the defendants in appeal for the life of New declared the defense was not responsible for his act because of mental deficiency inherited through his mother's family. He said New's conduct in court served as a strong proof of his abnormal mental condition.

Bandits Killing Americans Freed

If They Enlisted in the Carranza Army, Was Testified to Before the Senate Committee

RALPH R. WAYNE
(United Press Staff Correspondent.)
San Antonio, Texas, Jan. 14.—Charges that Mexicans sentenced to death for outrages against Americans in Mexico were freed upon enlistment in the Carranza army, were laid before the Senate committee in its public hearings here today. The hearings recessed at noon until 2:30.

G. Blalock, first witness, recounted stories of the killing of five members of the Chamal colony of which he was the organizer. The first colonist killed he said, was found in a well. Three Mexicans he said were convicted and sentenced to be shot. Later he declared they turned up in the army. A later trial of Mexicans for killing in the colony was interrupted and taken from the civil authorities by the military, Blalock asserted, and some witnesses for the Americans were sentenced to be shot.

Riots Started in Berlin where Demonstrations were Being Held Before Reichstag

(By United Press)
Berlin, Jan. 14.—A state of siege has been proclaimed throughout Germany with the exception of Wurtemberg, Saxony and Bavaria as a result of widespread riots. The proclamation was issued by President Ebert. Scores have been killed in riots in Berlin and more than one hundred men and women were wounded. The fight occurred when police and soldiers attempted to disperse a great mob which had formed in front of the Reichstag building. Hand grenades were used by the police with fearful results.

The mob began gathering shortly after noon in response to a request for a demonstration against pending labor legislation in the Reichstag.

At first the meeting was orderly, then radical speeches so inflamed the people that they attempted to raze the Reichstag. Fighting followed, scattering the guards about the building but they hurriedly called reinforcements. Machine guns were put into use. The greatest confusion followed. Many women were trampled under foot, as great scores attempted to escape the hail of bullets. Dead and wounded littered the great square in front of the Reichstag.

Situation Serious

London, Jan. 14.—Later reports from Berlin this afternoon indicate the situation in Germany was serious but had not reached the gravity of a revolution.

Yesterday's demonstration and riot near the Reichstag apparently was inspired by independent socialists, who frankly are out to overthrow the government the dispatch said.

Fiume Will Be Italian Port

Big Three So Decide—The Hinterland Will Be Jugo-Slav With Italians Guaranteed Rights

(By United Press)
London, Jan. 14.—The big three have decided Fiume shall be an Italian port under the league of nations a Paris dispatch said today. The Fiume hinterland, according to the dispatch, will remain Jugo-Slav territory, but Italy will be guaranteed certain economical rights, including the use of railroads.

Paris, Jan. 14.—Premiers Lloyd George, Clemenceau and Nitti were in secret session this afternoon still considering the disposition of Fiume.

During yesterday's secret session of the big three, Nitti made his final concession in the Adriatic dispute it was understood.

The Italian premier, it was said, agreed to give up all Italian claims in Dalmatia except the special regime at Zara, agreeing to give up neutralization of the part of the Italian mandatory to Albania. He insisted only on the retention of certain strategic points which President Wilson previously had conceded, and that Fiume be placed under Italian sovereignty, and connected with Italy, Istria being a narrow corridor. Should the Jugo-Slavs accept this solution that Nitti, who is accompanied by several ministers for that purpose, will immediately propose to make a final treaty which is considered certain President Wilson will also accept.

Daniel Webb, special detective shot Burke and captured Ed Holton part owner of a local taxicab company who admitted driving Burke and H. Robinson to the yards. Robinson is said to be a wealthy Winnipeg merchant. He escaped when Webb started shooting, but was apprehended later at the St. Paul hotel. He said he had a shipment of liquor billed to Winnipeg and decided he wanted to dispose of some of it in St. Paul. He engaged Burke and Holton to help him get it. Police said all three aided in breaking open the freight car.

Congressman Gullivan, of Mass. Gets Bitter Over Awarding of Service Medals

(By United Press)
Washington, Jan. 14.—Charges that many army medals for distinguished service were awarded unfairly were made by the house yesterday by Representative Gullivan, of Mass. after a complete investigation by the house military committee.

Many army officials who never heard a hostile shot were given medals, while scores of heroes in A. E. F. service have not been awarded, he said, adding service medals now are known as "desk service medals."

The representative was bitter in his denunciation of Field Marshal Foch, claiming that he had not enough space between his collar and belt to dispose of the medals received, and that he never heard a single shot.

General Pershing was attacked as awarding medals to two commissioned messenger boys.

(By United Press)
Washington, Jan. 14.—Mexican federal troops are being rushed to the state of Sonora to suppress the popularity of General Alvaro Obregon, candidate for the presidency in opposition to Carranza's party, according to unofficial advices from the border received here today.

The message said Carranza was about to put the state under martial law, that he had ordered several battalions of troops and that his forces were reported already disembarking at Guaymas on the Gulf of California. In sending for the troops he declared that a state of lawlessness existed in Sonora, according to the message.

American soldiers upset a lot of old customs while in France. This is probably the only existing photograph of any one seated on Napoleon's throne in the Palace of Fontainebleau. It was an audacious, sightseeing doughboy who obtained permission to seat himself in the historic arm chair.

Reds on Buford Have Been Peaceable

Story of the Conduct of the Passengers on the Buford Being Deported to Russia

By CARL D. GROAT
(United Press Correspondent)

Kiel, Jan. 14.—The 249 deported radicals aboard the U. S. transport Buford, the "soviet ark" have been as "peaceful as lambs," officers of the transport told the United Press today. The reds have been "eating all they can get, but have made no disturbances, and offered no threats of what they will do when they reach Russia," they said.

American correspondents were taken aboard the vessel today. There has been some slight dissatisfaction among the crew and three sailors, one of Irish and two of German birth, deserted Saturday night, apparently with the aid of German fishing boats in the harbor. Repair work on the Buford was progressing rapidly and she probably will sail Tuesday or Wednesday for an unknown port.

The former report which said her destination was Reval was incorrect it was learned. The report arose from a misunderstanding. German newspapers were told the Buford probably would land at a Baltic port and they confused this with the name Baltic port as the outer harbor near Reval, is reported here.

The reds were permitted to gather on the forward deck daily when the weather was fair. Part of the voyage was stormy and they were forced to stay below. Desertion of the three sailors was not mentioned aboard. The parents of one of the Germans live near Kiel.

A sailor on the tug Ballard, which conveyed the Buford, told the United Press "all is peaceful so far, but some of those reds looked troublesome, and on some occasions they have jeered us."

There has been no threats of hunger strikes, Berkman and Emma Goldman spent most of their time in respectable discussion on general topics, but always became angry when any officer mentioned bolshevism.

A weather bulletin of the agricul-
tural bureau gives this report on
highways: The roads throughout the
state, excepting in the southeast, are
generally in good shape, excellent as
a rule for sleighing, passable to
good for wheeling. The latter state-
ment applies, however, only to the
main highways, since side roads con-
tinue impassable, except for sleighs.
Many of the main roads are built up
so high with snow, and the ruts cut
by the wheels are so deep, that auto-
mobiles will experience difficulty in
places to get through. In the south-
east the roads are poor, even for the
sleighs, while being with scarcely an
exception impassable for wheels.
Travelers going out of the city in any
direction, except southeast, will have
little difficulty in getting through.

FORD
The Universal Car
Don't Depend on Spring Deliveries
Spring deliveries of Ford cars have never been certain, and they should not be de-
pended upon. Demand has always been greater for Ford cars than the supply or produe-
duction. So, if you would be sure of having a Ford car, buy it now while deliveries are
possible. Don't wait—even next months is an uncertainty.
Only a limited, specified number of cars has been allotted to this territory. That al-
lotment cannot be increased, because the demand all over the country is greater than the
supply or production. Get your order in now, and you will be one of those who is sure of
a Ford car out of our allotment.
It's first come—first served. All orders are filled in rotation. So, if you would be
forehanded, if you would be certain of having a Ford car when you want it—then you
will buy a Ford car now. A signed order with us is your protection. It is the result of
the wisdom of looking ahead.
If you buy a Ford car now, don't think you have to "store" it. The Ford is a car
made to serve its owners for business or pleasure throughout the entire year. Ford own-
ers have long since come to recognize the fact. It is no longer popular to "lay-up" your
car for the winter. Buy a Ford car now, and use it now.

WOMAN'S REALM

CHILDREN'S CLINIC

Dr. N. O. Pearce and Miss Cordiner Spoke Friday Evening on Subject

On Friday evening, January 9, a goodly number of Brainerd's citizens gathered at the Chamber of Commerce to listen to talks given by Dr. N. O. Pearce and Miss Cordiner of the University of Minnesota, who conducted the children's clinic at the Washington building during the day. They spoke in a most interesting and instructive way of efforts which are being made to improve the physical condition of children.

Dr. Pearce gave a brief history of such work in the United States, telling of its beginning fifteen years ago when registration of births and deaths indicated a very large infant mortality. He said: "Since that time Infant Welfare societies have been organized in many cities and lately in rural communities which have saved the lives of many babies. Now this work is being extended to older children, the necessity for it being realized especially since the statistics showing the large number of young men who were physically unfit for the army were made public. New York city took the lead in holding clinics for children, and today there is a nation-wide movement in this direction. The most of the defective children are suffering from malnutrition. This is not a disease, but is a retarded physical condition. It is due to various causes; sometimes to lack of sufficient food, though not often; very seldom to heredity; many times to diseased tonsils, defective teeth, or a tubercular condition. Mal-nourished children in cities are being taught in classes what they should do to improve their health and are much interested. Three hundred and fifty clinics have been held in Minnesota within a few months and many more are planned for. Brainerd has had its third clinic, and will have others. It should have a permanent clinic."

Miss Cordiner said, as Dr. Pearce did, that few children have too little food. "It is rather the wrong kind of food, or it is improperly prepared. Food should give children the power to work and play. Plain food consisting largely of vegetables will do this. Lunches after school should be very plain, not cookies or candy or jam, all of which tend to take away the child's appetite for the plainer food at meal time." Miss Cordiner emphasized the fact that coffee is not a food but is a stimulant, and is not good for children. She said that malnourished children were tired, had sagging shoulders and often seemed lazy. They need much rest. Well children enjoy

plain food, they walk with a spring, are never lazy, but are willing to work and play. Miss Cordiner closed her talk with statistics showing how the health of children in other cities had been greatly improved largely by their own efforts.

FOR THE WINDOWS AND BEDS

Simple Curtains and Quilts Add to the Beauty and Cheerfulness of the Home.

Unbleached cotton makes pretty curtains and bedspreads.

Two widths of the fabric can be used for a double-size bedspread, and one-half for valance. This may be made plain or gathered. Bands may be sewed on the lower edge of valance, and also on the seams. Pillow shams trimmed to match are attractive.

There is nothing very new in plain white scrim curtains, but trim them with pink, blue, green or yellow block gingham, and you will have unusually pretty draperies.

The same idea carried out in bureau scarfs is very good.

Linen-colored crash banded with chambray make very pretty dining-room draperies.

When hemming curtains pull several threads, just as is done for hemstitching. This will make it easier to cut and hem them evenly.

It must be borne in mind that in order to obtain artistic and restful rooms plain colored or bordered curtains should be used with figured wallpaper (especially large designs). On the other hand large-figured draperies can be used very effectively with plain wall covering.

Preserving American Scenery.

While the members of the Associated Mountaineering Clubs of North America are not all devoted to mountaineering, they have a common bond of interest in the preservation of American scenery and in the protection of plant and bird life in their natural environment. The association is co-operating with the national park service for the creation and development of national parks and "monuments." A fine collection of literature on mountaineering has been formed by the association at the New York public library and bibliographies are being compiled and published. When this organization was founded in 1916, it embraced nine clubs and societies. Now there were 29 and the aggregate membership is over 45,000.

Bombarding Sky With Names.

By means of new wireless invention it will be possible to project sounds into the air which will enable an aviator to know exactly where he is. For example, suppose he were passing over Calgary, from the moment he approached the region he would receive the message "This is Calgary" until he had left it behind him. And so on with all places over which he may pass. In this way his chances of losing his way will be considerably diminished.

It Can't Be Done

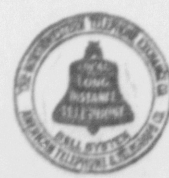

You don't have to be told that you can't put out a real fire with a cup of water. You know it can't be done, and it seems ridiculous to mention it.

We agree with you, yet it is no more ridiculous than to attempt to operate the telephone company on rates that will not pay operating expenses.

Also, the amount of money required to operate the telephone two or three years ago is not enough to pay for present day operation.

Wages have been increased, the cost of everything that goes into telephone construction has about doubled. To meet these increases the telephone company must charge rates which correspond with all the other increases.

The telephone is operated for your service. We want to make it serve you in the best possible manner. This can't be done without fair rates.

BIRD'S SONG IDENTIFIES IT

Once Heard, One Is Not Apt to Forget the Trill of the Beautiful Dickcissel.

As far as we are informed, there is but one American bird whose song can be heard above the roar and rattle of a swiftly moving train, when the receiving end is on the said train.

You may be "jazzing" along at sixty or seventy miles an hour in your comfortable Pullman seat, and over the tremendous hum and racket of the steel caravan will come to you from the little feathered fellow on the telegraph wire outside the incessant song of hot-weather joy.

"Dick! Dick! Dickcissel!" Or, if you prefer another analysis: "Chip! Chip! Chee-chee-chee!"

So the Dickcissel has a distinct stunt of his own—something that no other bird can imitate or rival. Sometimes we think Dick is a bit proud of it, too, for he lines the railway right of way clear across the middle western and plains states in such numbers his song is ever in our ears while you are traveling.

The Dickcissel was formerly called the black-throated bunting and is a very beautiful creature as well as very useful. He is mostly of a rich yellow hue, with a black throat—but nobody need identify him by his dress, for his song is inimitable. In our experience we never heard any of the mocking birds attempt to imitate the "Chip! Chip! Chee-chee-chee!" of the hot-weather friend.

He is really a salamander of the air, too, for he is late in arriving and early in departing, and does his best vocal stunts when you and I are gasping beneath an electric fan. He eats lots of bugs and weed seeds and is a mighty good citizen.—Omaha World-Herald.

POETS BRAVE FIGHTING MEN

Writers of Deathless Lines Also Won Immortality on the Bloody Fields of Battle.

What power have the sacred Nine over their loved ones to make poets take to war?

Sidney, writer of deathless lines, died a gallant soldier.

Dante defended his tenets in arms. Byron contracted a mortal fever helping to free Greece from her tyranny, and Burns was a member of Scotch dragoons, with no opportunity arising for heroics that marked him a soldier. He was, however, valiant, and left what is probably the greatest war poem in all poetry, "Scots Wha Hae Wi' Wallace Bled!"

And now out of the great defenders of humanity in the war just being straightened out comes D'Annunzio, Italy's bard, fighting the fight of a captain who will hold out "if it lasts all summer!"

Joyce Kilmer sleeps in France. Allan Seeger is proud "a few brave drops were ours."

And Robert Service was at the front bringing in the mangled, and has given us a poem in his "Rhymes of a Red Cross Man," entitled "Grand Pere," that will make the bravest shudder.

O, ye, who called the land to arms, ye hypocrites that gave an outburst of fine fire with your pens, reddened with shame and bow an humble head to those who, as Edwin Markham says, "fought the poetry they sang."—Milwaukee Sentinel.

Land Question in Chile.

The land question, particularly as it relates to the Indians, has of late been receiving attention from those interested in the future of Chile. The tendency has been to take every advantage of these natives, who, despite the many handicaps that official and unofficial greed have placed in their way, are admitted to be making substantial progress. They have, as might have been expected, shown themselves particularly proficient in agriculture and cattle breeding. Crying evils in the administration of the lands have been pointed out in the public press, but as yet the authorities do not seem to be sufficiently interested in remedying a state of affairs that does much to alienate the sympathies of an important, if subordinate, part of the population.

AMUSEMENTS

"THE MIRACLE MAN"

Finished Play, Spoken Drama, Presented at the New Park Theatre on Sunday Evening

A finished version, spoken drama, of "The Miracle Man," was presented at the New Park theatre on Sunday evening, with Paul Gilmore, well known to many Iowa people in Brainerd, in the stellar role.

All attending had seen the film production months ago and were curious to see how Cohan's play compared with the film version. This western company of "The Miracle Man" was trained in Duluth and played Brainerd as its second engagement. From here their tour included Fargo, Grand Forks, Helena, Butte, Billings, Spokane and other western points. In about three weeks Scottie will be reached and a long run is expected on the coast.

Gilmore gave a fine characterization of John Madison, alias "Doc," brains of the scheme to commercialize the "Patriarch." Miss Dixie Blair was Helena, Madison's "queen" and gave a clever rendition of the part. Bessie Dainty as Mary Holmes was pretty and girlish and just suited for the role.

Olaf Skavlan as "The Patriarch," showed too much muscular activity. The film showed the "Patriarch" as a blind man, deaf, slow moving, aged, with long flowing hair, but clean-shaven face. The "Patriarch" of the spoken drama had long hair and whiskers, but spoke too rapidly and moved too quickly. It would be well for him to conform his movements to the slow gesture of the film.

The spoken play of George M. Cohan carries its appeal. It will have large audiences, if for no other reason than to see how the original play compared with Tucker's wonderful elaboration in the films. Tucker there gained the honor of coming nearest to photographing thought.

GOOD NEWS

For

HOME LOVERS

Just a little note of greeting. We hope that all through this year your life will be as pleasant as it would were you to abide by all the resolutions which you surely made.

Furniture prices are going to remain at a high level for years. Perhaps they will never be materially lower than they are now. Persons needing furniture cannot possibly gain by postponing purchasing until some later day.

Now we will substantiate these statements. Manufacturers have assured us that they see no rift in high-cost-of-production clouds. Workers assuredly will not relinquish that which they have gained after so long a wait.

Looking into the future, we can't forecast fairly, deflation to any appreciable extent on raw products which the furniture manufacturers use. The future shall see sustained prices due also to the fact that demand is far greater than supply.

Those who delay buying furniture are gambling against a market which can't better their possibilities. They are endeavoring to trace will-o-the-wisps of fancy, dedicated to the nightmares of uninformed agitators. They lose out on present merchandise.

Yet Despite These Conditions, We Have Good News For Home Lovers

Last July we started purchasing goods for April, May and June of this year. We find that between now and February 1st, we must greatly reduce our stock to make place for the new goods which will then begin to arrive. UNUSUAL FEAT ACCOMPLISHED

Two Seniors of Brainerd High School Hypnotized at Sleigh Ride Party Entertainment

(Contributed)

The Seniors of the Brainerd high school invited the normals and some of the faculty to a most entertaining sleigh ride party Friday evening. The party left the school at 7:45 in two hayracks filled with happy girls and boys. The crowd singing and cheering spent two hours of solid joy-riding around town.

Returning to the school the class put on some impromptu plays and shadow movies. James Mahlum acted as director and George Glibertson took the part of a villain. Albert Buscher was the hero, who rescued Mildred Bredenberg, the heroine, in one of the plays. This play took so well that it is expected they will be called upon to give it again. John Gemmell was successfully hypnotized and gave a very good imitation of Caruso bringing out the low notes of "Blowing Bubbles." Charles Van Alstine was also put under a hypnotic spell, and succeeded in supporting a man on his chest while he lay head of one chair and feet on another.

Delicious refreshments of oyster stew, cocoa and egg sandwiches were served. The crowd left the school at 2:15 and made their way to the depot to meet the basketball team on their return from Aitkin.

The Seniors are busily at work on their class play which is to be presented before Lent. They have selected "Let's Get Married," which is entirely different from any of previous years, with a most unexpected ending.

Favors Paving

Editor Daily Dispatch:

I am very much interested in the matter of street paving in Brainerd, and therefore beg indulgence of space in your valuable paper, to urge upon our City Council to "Go the Limit" in this direction.

I for one feel certain that the cost of construction will not be reduced for at least four or five years and possibly longer. Then too when this cost is reduced may it not be more difficult to meet than now?

We all know too well the deplorable condition of Kindred, Kingwood, West Laurel, Oak and South Sixth street. Now for goodness sake let's stretch our city finances and regardless of cost, see that these most important thoroughfares are paved without further delay and keep "Brainerd on the Map."

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Brainerd people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. H. Shields, 1207 Norwood St., Brainerd, says: "About three years ago I was troubled with my kidneys. They were weak and disordered. I was often awakened during the night and would have to get out of bed and walk around with my hands on my hips trying to ease the pain. I had large circles and puffy sacks under my eyes and felt unfit for anything in the way of work. I tried a good many remedies for relief but nothing did me any good until I got Doan's Kidney Pills at Johnson's Pharmacy. The first few brought relief and when I had finished the third box I was as well as ever and have never been bothered since."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shields had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Coughed Day and Night

John Vague, Elberton, Ga., writes: "I coughed night and day and my throat was raw and sore. I got a bottle of Foley's Honey and Tar and my condition began to improve and in a few days I was as well as ever. In my opinion Foley's is the best cough medicine made." Best for colds, croup, whooping cough. Children like it. H. P. Dunn. mwf

No "Garage" for Him.
Edwin had seen a cemetery where there were many mausoleums. One day he said to his mother: "When I die, I don't want to be buried in one of those garages in the cemetery."

OLD PAPERS—5c BUNDLE

INCOME-TAX PRIMER TO DATE

Questions in income tax submitted to the Dispatch, are given to J. C. Douglas, new deputy revenue collector for solution. Brainerd is his headquarters for the three counties of Crow Wing, Cass and Morrison. Mr. Douglas was on the iron range last week and served summons in several income tax cases.

Question: Am I required to render a personal income-tax return for 1919?

Answer: Yes, if you are unmarried, or if married and not living with husband or wife, and your net income for that year equals or exceeds \$1,000, or if you were married and living with husband or wife and your net income equals or exceeds \$2,000 for that year.

Question: Is a married man who is entitled to a personal exemption of \$2,000 and \$400 additional exemption on account of two dependent children, and whose total net income does not exceed \$2,400, but does equal or exceed \$2,000, required to make a return?

Answer: Yes. Although he is not required to pay an income tax, he is required to make a return.

Question: Where can I get a blank form upon which to make my return?

Answer: From the collector of internal revenue of your district. The collector will endeavor to have such forms sent to you, but failure to receive one will not excuse you from making a return. If you do not receive one, it is your duty to request one of the collector.

ANNUAL MEETING

To be Held by Congregation of the Bethlehem Evangelical Church Friday Evening

The congregation of the Bethlehem Evangelical church, corner Main and Bluff, will hold its annual meeting Friday evening at 7:30 o'clock in the parlors of the church. Reports of the secretary, treasurer and trustees of the church will be received, officers for the ensuing year elected and plans for the year perfected. The Ladies' Aid, Sunday school and the Young Peoples society will also give detailed reports of their accomplishments for the past year.

The year 1919 has been one of the most prosperous ones in the history of the church. The debt has been reduced by nearly one-half and the membership shows an increase of over 100 per cent all due to the untiring energy of the pastor and the members of the church who work together in perfect harmony. Great credit is due to the Ladies' Aid society of this church which has accomplished much during the past year. It was due to their aid, by contributing large sums of money, that such a material reduction of the church's indebtedness was made possible. The church is proud of this society.

After the business session is over lunch will be served and arrangements have been made to entertain a large turn-out and every member will make it a point to be present.

Joint Installation

A joint installation of Pap Thomas Post No. 30, G. A. R. and J. C. Congdon Circle, No. 89, L. of G. A. R. will be held in the L. O. O. F. hall on Thursday, January 15, at 2 p. m. Friends of the Post and Circle are cordially invited. Lunch will be served.

THOSE MINCE PIES

By MARY POWER.

(©, 1929, by McClure Newspaper Syndicate.)

Covers were laid for three. Eric Dorr declares the mince pies led up to it. Mrs. Deane slyly hints some credit is due her since she herself was indirectly responsible for the unlighted gas jet at the head of the stairs. Miss Barbara, however, keeps mum. It happened like this:

Eric had fallen asleep over a game of solitaire. He awakened with a start when the improvised table across his knees, with the cards atop, tumbled noisily to the floor. He frowned at his watch which said eight o'clock.

Suddenly Eric sniffed eagerly. An aroma, a delicious honey smell, filtered into the room. It was the unmistakable odor of mince pies. Craning his neck, he beheld several succulent brown things on the ledge of the window directly below.

He liked his present quarters immensely. Mrs. Deane, the landlady, was a rare motherly soul. And there was Teddyboy across the hall, dear, lovable kiddie. Teddyboy was seven, brown-eyed and wistful. Yesterday the child had said:

"Wish! Corporal Jim'd come home for the party." Eric's hand had trembled as it stroked the soft, yellow hair. "Corporal Jim" would never come home—alas!

Such morbidness! Eric swung around. Those mince pies had upset him. He would go for a stroll.

He found the hall in darkness—an unusual thing.

A door below opened softly and someone swiftly ascended the stairs. Dazedly, Eric drew aside. Immediately there was a smothered shriek and, with presence of mind, Eric reached out.

Her surprised cry had betrayed her sex, while the quivering of the supple young body, held close, told him she was a mere slip of a girl. The thump, thumping of the bundles as they bounded downward proclaimed a previous shopping expedition. And then she laughed, a little sheepish laugh, which straightaway broke the tension.

"All right, kiddie," he told her, "hold tight. I'll light up." The light flickered garishly.

She was a dainty creature, to be sure; sweet and pretty. But a kiddie! The mischievous twinkle in her dark, pensive eyes made him chuckle inwardly. Then, with a gully flush, he noted the miscellaneous collection of eatables adorning the stairs. Through its covering of stout brown paper the leg of a plump chicken protruded. Midway below reposed a bunch of celery. And cranberries! There were other things; clusters of grapes, oranges, a bottle of olives lay at his feet. Mechanically, he stooped.

She bestirred herself. "They're all of them all right. I shall wash them, of course; one mustn't be too wasteful. Mrs. Deane is out," she apologized, "and I was to light up. But I've been cooking, and I thought you"—she blushed for no apparent reason—"most of the roomers are away. I was fetching these things up for Teddyboy's inspection. We're to have a regular party tomorrow."

"I'm glad it wasn't my mince pies," she dimpled up at him.

"Um-m, yes, I smelled 'em," he smirked his lips boyishly.

"Oh, Captain Dorr," irrelevantly, "Teddyboy told me all about you. You're a room directly over my kitchenette. I hope I don't disturb you," anxiously.

He hastily reassured her. She smiled her appreciation, then suddenly her face grew grave.

"Teddyboy says you were at S—where our Jim was killed." Her chin fell. "I—we—miss him so!"

He sensed the inevitable heartache. "Are you sure you want—the details?" he asked gently. She nodded bravely. He tried to tell her.

"And he was there, brave laddie, in the thickest of the fray, gallantly fighting, when—" His voice trailed off huskily. "If only we might have exchanged places," he added a bit fiercely. "He had so much to live for, while I—I had nobody who cared. But I escaped unscathed," bitterly.

"But—" She wondered at the scar near his temple.

"Oh, that?"—casual like—"Bayonet thrust," succinctly.

"O-o-oh!"

They had finished the task now. The bundles were heaped on the bottom stair. There was an awkward pause. Eric found his heart pounding furiously, she looked so wan and droopy-like.

"He often mentioned Teddyboy out there. And you—he called you 'Babsie.'"

A queer, throaty sound issued from her lips like a sob held in check. Then she faced him bravely.

"I've just got to keep a stiff upper lip, for Teddyboy's sake," she said. And then added something that thrilled him clear through.

"You might come to the orgy tomorrow. We'll set another place. There used to be three—"

He had to say something.

"Er-er," incoherently, "mightn't the cats get 'em, those mince pies, I mean?"

She stared, then flashed him a shy, sweet smile, not unlike the glimmer of a sunbeam on a misty morn.

"Why—why—what a boy you are!" she said shakily.

Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. A. J. Cheney & Co.

Mixture of Many Languages.

Modern English is a composite of Latin and the language of the ancient Britons who were conquered by the Romans, together with many Scandinavian words introduced by the Danes when they conquered England. German words brought by the Saxons, and French words brought by the Normans. There is scarcely a language that has not contributed something to modern English, but those mentioned have been the largest contributors. Many technical words have been taken from the Greek.

Morality the Object.

The end of all political struggle is to establish morality as the basis of all legislation. "Tis not free institutions, 'tis not a democracy that is the end—no, but only the means. Morality is the object of government. We want a state of things in which crime will not pay; a state of things which allows every man the largest liberty compatible with the liberty of every other man.—Emerson.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 30 cent bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and aches are gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

IS YOUR BLOOD HUNGRY FOR IRON?

Who Should Take Nuxated Iron

Modern Methods of Cooking and Living Have Made An Alarming Increase in Iron Deficiency in Blood of American Men and Women

NUXATED IRON

Helps Make Red Blood

The Kind That Puts Roses Into the Cheeks of Women and Forces Strength and Courage Into Veins of Men.

"Is your blood starving for iron? Iron is red blood food. If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally go hungry for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood—and who never suspect the cause of their weak, nervous, run-down state. But in my opinion, you can't make strong, sturdy men and women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are to be taken up and assimilated by the human system. Notwithstanding all that has been said and written on this subject by well-known physicians, thousands of people still insist in dosing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the packages. If you have taken preparations such as Nux and Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron."

If you are not strong or well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of see how much you have gained. Numbers of all the while have increased their strength and endurance in two weeks' time while taking iron in the Nuxated Iron form.

NEW TREATMENTS THAT KNOCKS RHEUMATISM

75c Box Free to Any Sufferer

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expenses to me personally."

F. H. Delano, 1565 Griffin Square Bldg., Syracuse, N. Y. I can send you one Free Package to an address.

"Cakes and Beer, and Washing Here"

Before a ramshackle house in a little New England village there used to hang this sign:

"Hiram, the widow's son, I hope
"Can furnish customers with soap,
"Such as will make the washing day
"Pass off as pleasant, e'en as May.
"Cakes, and beer, and washing here."

Hiram had the right idea. He knew that there were people who wanted what he had to sell. The difference between Hiram and the modern advertiser is that the former had to trust to somebody passing to see his sign. He could not bring his sign to everybody.

The modern advertiser with something to sell that he feels you want, saves you the trouble of going to his place to see about it. Readers of advertisements visit all the advertisers at a single sitting.

This is a service that those who advertise are rendering you, just as the clerks they hire, the deliveries they make, are service. They are saving your time, energy and money by bringing their establishments to you through the advertisements.

Read the advertisements with this thought in mind.
